GUILLERMO NAVARRO

Panama City, Panama | gnavarro0197@gmail.com | github.com/Guille0197 | linkedin.com/in/guillermo-antonio-navarro

Full Stack Software Engineer with 6+ years of experience delivering web and mobile products in banking and insurance. Build customer-facing applications, integrate payment technologies and REST APIs, and work with AWS cloud services. Founder of a loyalty SaaS and developer of a published iOS app using on-device AI.

PROFESSIONAL EXPERIENCE

Banco General | Sep 2022 – Present

Full Stack Developer

- Develop and enhance features of the mobile-banking app, delivering new functionality and a refined UI that improves the experience of 1M+ users.
- Build with Angular and Ionic (frontend), Java with Spring Boot (REST API services) and AWS for cloud scalability.
- Integrate payment SDKs into the commercial banking app to support Tap on Phone acceptance on compatible devices, connecting payment capabilities with mobile workflows.
- Implement REST API integrations and user-facing improvements across frontend and backend components in a regulated financial-services environment.

ASSA Compañía de Seguros | Oct 2020 – Aug 2022

Programmer Analyst

- Started as a C#/.NET Core backend developer, then moved to the frontend with React and React Native, building web and mobile applications for insurance customers.
- Worked with JavaScript, TypeScript, SQL databases, Agile/Scrum and Azure DevOps across the full delivery lifecycle, from API development to user interfaces.

Diprocess | 2019 – 2020

Junior Web Developer

- Took part in web projects for companies in several industries, from initial development through maintenance, building responsive interfaces with HTML5, CSS3 and JavaScript.
- Built C#/.NET Core REST APIs, designed Microsoft SQL Server databases and automated CI/CD workflows with Azure DevOps.

SELECTED PROJECTS

Panaloyal | SaaS Product | panaloyal.com

Founder & Developer

- Built and launched a digital loyalty platform for SMBs in Panama and Latin America: QR enrollment, Apple/Google Wallet passes, rewards, customer insights and automated campaigns (Next.js, Supabase).
- Onboarded business clients whose loyalty programs have up to 900 registered customers.

WrappedMe | iOS App · App Store

iOS Developer

- Designed and published a native SwiftUI application that turns personal photo libraries into shareable recaps using Apple Vision and Apple Intelligence, with privacy-first on-device processing.

EDUCATION

Universidad Tecnológica de Panamá | Bachelor’s Degree in Software Development | 2017–2021

Intermediate qualification: Engineering Technician, Specialization in Software Development

TECHNICAL SKILLS & AI

- Full Stack: TypeScript, JavaScript, React, Angular, Ionic, React Native, Node.js, Java, Spring Boot, C#, .NET Core, REST APIs, SQL Server, PostgreSQL, Supabase
- Cloud & Delivery: AWS, API Gateway, S3, Fargate, CloudFormation, Docker, CI/CD, Azure DevOps, Scrum
- AI: Apple Vision and Apple Intelligence (WrappedMe); exploring Claude Code, AI agents, subagents, Skills, MCP, local LLMs, agent security and SDD/ASDD/ODD
- Certification: AWS Certified Cloud Practitioner
