GUILLERMO NAVARRO

Full Stack Software Engineer | AWS Cloud | SaaS & Applied AI

Panama City, Panama | github.com/Guille0197 | guille0197.github.io/portafolio/
linkedin.com/in/guillermo-antonio-navarro/

PROFESSIONAL SUMMARY

Software engineer with 5+ years of experience in web and mobile development.
Financial-services experience across Angular, Ionic, Java, Spring Boot, REST APIs and AWS.
Independent builder of Panaloyal SaaS and WrappedMe, a published on-device AI iOS app.

EXPERIENCE

BANCO GENERAL | Full Stack Developer | Sep 2022 - Present

Develop and maintain mobile-banking functionality with Angular, Ionic and Java/Spring Boot.
Integrate REST APIs and AWS services in a regulated financial-services environment.

ASSA INSURANCE | Programmer Analyst | Oct 2020 - Aug 2022

Built web/mobile insurance software with C#/.NET APIs, React and React Native.
Collaborated in Agile delivery workflows using Azure DevOps.

DIPROCESS | Junior Web Developer | 2019 - 2020

Developed web interfaces, REST integrations, SQL Server features and CI/CD workflows.

SELECTED PRODUCTS

PANALOYAL | SaaS product | panaloyal.com

Digital loyalty platform: wallet passes, QR enrollment, stamp cards and campaigns.
Built with Next.js, Supabase, API endpoints, webhooks and scheduled automation.

WRAPPEDME | iOS app | apps.apple.com/us/app/id6790265801

Published SwiftUI app using Apple Vision and Apple Intelligence on-device.
Photo recaps, local analysis, Face ID, StoreKit 2 and six supported languages.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, React, Angular, Ionic, HTML/CSS
Backend: Node.js, Java, Spring Boot, C#/.NET, REST APIs, SQL
Cloud: AWS, API Gateway, S3, Fargate, CloudFormation, Docker, CI/CD
iOS/AI: SwiftUI, Vision, Apple Intelligence; exploring MCP and agent workflows
